- Birth date: 06.12.1991
- Address: Am Steinfeld 3, 85659 Forstern, Germany

Executive Summary

A highly skilled IT professional with a Bachelor's degree in Computer Science and over 5 years of experience in IT administration, database management, and web development.

I am a collaborative team player with excellent communication skills and a knack for solving problems effectively. I am enthusiastic about joining the tech industry and eager to become part of a dynamic development team where I can both contribute and grow professionally.

Dedicated to continuous learning and currently enhancing professional skills through a Full Stack Development program at Code Institute.

Education

February 2024–Present

Diploma in Full Stack Software Development

Code Institute - Dublin, Ireland -

(Credit Rated by University of West of Scotland)

Technologies:

- **Frontend**
 - HTML5, CSS, Javascript, JQuery, Bootstrap
- **Backend**
 - Python, Django, Flask, APIs
- **Database**
 - postgresSQL

December 2020–August 2022

Skills Enhancement

Udemy, Code with Mosh (online resources)

Technologies:

- Python programming language
- Django framework

November 2010–December 2014

Bachelor of Computer Science

Aria University, Afg

Education and Training:

- Data structures and algorithms
- Basics of programming
- Programming languages
- Relational database design and SQL
- Software development
- Data science

Technical Skillset

Technologies:	HTML5, CSS3, JavaScript, Python
Databases:	MySQL, Postgres
Frameworks:	Django, jQuery, Bootstrap, Flask
Containers:	Docker
APIs:	Restfull API
Operating systems:	Windows, Linux
Version Control:	Git, Github

Work Experience

November 2022– January 2024

Freelancer (Backend Development)

Spottech, New Zealand

- Development and implementation of backend functions for various applications.
- Leveraging modern technologies, such as Django, to seamlessly integrate API endpoints and implement database-driven functions.
- Proactively engaged in the design and development of backend systems to ensure seamless operations.
- Consistently optimize and maintain applications to uphold high standards of performance and quality.
- Effectively manage and optimize SQL databases to meet end-user requirements.

April 2018–October 2020

Database Administrator

UHCC, Afg

- Database design and creation.
- Maintain database standards and policies.
- Managing database availability and performance.
- Incident and problem management.
- Database administration for optimal use.
- Implementation of event triggers for problem detection.
- Database maintenance and optimization.
- Monitor usage and security.

March 2016–January 2018

Database Analyzer

MBC, Iran

- development of an efficient inventory management software.
- Design and administration of financial software in Microsoft Excel.
- Database maintenance to ensure integrity and accuracy of financial data.

February 2015–January 2016

IT Administrator

TEC, Afg

- Troubleshooting network problems.
- Management of printers, copiers and fax machines.
- Server maintenance and disaster recovery.
- Monitoring of UPS workstations and operational printers.
- Backup support for workflow system.
- Ensuring password and data security in desktop environments.

Certifications

- Code Institute - Fullstack Web Development – on going
- Code with Mosh – Complete Django (16 hours)
- Udemy – 100 Days of Code (54 hours)
- Python Programming Masterclass (63 hours)
- Bachelor of Computer Science

Interests/Additional Information

- Fluent Persian, Fluent English, Fluent Turkish, Good German
- Fitness and wellness activities
